NOTES TO CONSOLIDATED FINANCIAL STATEMENTS OUARTER 1 2025

c. Investments in other entities

Investments in other entities are the investments in equity instruments of other entities in which the Company does not control or has significant influence to the invested entities.

3. Receivables

All receivables must be detailed by aging, by each client and in original currency (if any) and others details depending on the management request of the Company.

The classification of receivables must be managed as follows:

- Trade receivables: Receivables resulting from trading activities between the Company and its clients such as selling goods, rendering service, disposal of assets, export sales of consigner through the consignee;
- Intra-company receivables: Receivables between the Company and its dependent units;
- Other receivables: Receivables not related to trading activities.

For the preparation of financial statements, the receivables must be classified as follows:

- Having maturity less than 12 months or an normal operating cycle are recorded as short-term receivables.
- Having maturity over than 12 months or an normal operating cycle are recorded as long-term receivables.

At the reporting date, the Company revaluates the receivables due in foreign currency (except for advances to suppliers; if it has evidence that the supplier will not provide goods or services and the Company will receive this advance in foreign currency, this advance will be treated as monetary items) at the buying price quoted by commercial bank where the Company normally transacts with at the reporting date.

Provisions for bad debts: The provisions for bad debts are made at the reporting date. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS OUARTER 1 2025

d. Provision for obsolete inventories

At the reporting date, if inventories are not recoverable due to damages, obsolescence, reduction of selling price. In this case, the provision for obsolete inventories is made. The provision for obsolete inventories is the difference between the original costs of inventories and its net realizable value.

5. Tangible and intangible assets, finance leases and investment properties

Fixed assets are stated at the historical cost. During their useful life, fixed assets are recorded at cost, accumulated depreciation and amortisation and net book value.

The historical cost of financial leases is recorded as the fair value of the leased asset or the present value of the minimum rental payment (in case the fair value is higher than the present value of the minimum rent payment) plus the direct costs initially incurred related to the financial lease activities. If input VAT is deductible, the current value of the minimum rent payment does not include input VAT.

During the useful life, the depreciation and amortisation is recorded to the expenses for which the asset is used. Intangible assets that are land use rights are only depreciated for definite land use rights.

Investment properties are depreciated as a fixed asset, except for investment property held for appreciation. The Company accounts for impairment loss on investment properties held for appreciation.

Investment property held for appreciation is not depreciated but determined the impairment loss due to decrease in value.

Depreciation of tangible assets and amortization of intangible assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

- Buildings and structures	08 - 25 years
- Machinery and equipment	97 - 10 years
- Means of transportation	04 - 07 years
- Office equipment	03 - 06 years

6. Business cooperation contract

A business cooperation contract (BCC) is a contractual agreement among parties to carry out specific business activities, but not establishing a new legal entity. Parties receiving assets records them as a liability, not equity. Types of BCC are demonstrated as follows:

- BCC in the form of jointly controlled assets;
- BCC in the form of jointly controlled operations;
- BCC in the form of shares of post-tax profits.

7. Deferred tax expenses

Deferred tax assets and deferred tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS OUARTER 1 2025

12. Accrued expenses

Payables for goods or services from suppliers but not yet paid due to lack of supporting documents and payables to employee not yet recorded in expenses to make sure that actual expenses will not cause souden increase in operating costs based on the matching principle. The accruals must be meticulously calculated and must have appropriate and reliable evidence. When these expenses arise, if there is any difference with the accruals, accountants accrue or reimburse accruals to reflect the difference.

13. Provisions

Provisions shall be recorded when the following conditions are satisfied:

- The company has current debt obligations (legal obligations or joint obligations) as a result of an event that has already occurred;
- A decrease in the economic benefits that may result in the requirement to pay the debt obligation;
- A reliable estimate of the value of that debt obligation.

The value of a provision is the most reasonable estimate of the amount that will be spent to pay the current debt obligation at the end of the accounting period.

A provision for enterprise restructuring expenses shall be recorded only when the conditions for recognition of provisions as prescribed in the Accounting Standards "Provisions, contingent assets and contingent liabilities" are met.

Provisions shall be made or reimbursed at the reporting date. Provisions made shall be recorded in general and administrative expenses. Particularly for the warranty provisions for the merchandise, it shall be recorded in the selling expenses; the warranty provisions for the construction shall be recorded in the operating cost and reimbursed in other incomes.

Only expenses related to the originally established provisions shall be offset by such provisions,

14. Unearned revenues

Uncarned revenues include incomes received in advance such as: rental prepayment of customer in one or numerous periods, interest prepayment of borrower or debt instrument purchase, the differential price on installment payment; corresponding to turnover of goods, services or discounts to customers in traditional client program.

334A Phan Van Tri, Binh Thanh District, Ho Chi Minh City CONSOLIDATED FINANCIAL STATEMENTS FOR QUARTER 1 For the fiscal year 2025, ended as at 31/12/2025

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS OUARTER 1 2025

The receipt of capital contribution in assets must reflect the increase in the owner's investment capital at the revaluation price of the assets approved by capital contributors. For intangible assets such as brands, trademarks, trade names, exploitation rights, project development, etc., the Company only record an increase in contributed capital if permitted by relevant laws.

For joint-stock companies, contributed charter capital is recorded based on the actual price of stock issuance, but is recorded in detail in two separate criteria;

- Contributions charter capitals are recorded according to par value of shares;
- Share premium shall record the difference between the par value and issue price of shares.

In addition, share premium shall record the difference between the par value and issue price of shares when reissuing treasury shares.

Comvertible bond options arise when the company issuing a type of bond that can convert into a specified number of shares stated in the issuance plan. The value of the equity component of convertible bonds is the difference between the total proceeds from the issuance of convertible bonds and the value of the debt component of convertible bonds. At the time of initial recognition, the convertible bond options are recorded separately in the owners' equity. When the bond matures, this option is accounted for as share premium.

Other owner's capital reflects business capital formed due to supplementation from operating results or from donation, sponsorship, and asset revaluation (according to current regulations).

b. Asset revaluation reserve

Asset revaluation reserve reflects differences due to revaluation of existing assets and situation of settlement of such differences at enterprises. Revaluated assets are primarily fixed assets, investment properties, in some cases it is possible and necessary to revaluate materials, tools, equipment, finished goods, inventory, worked in process, etc.

20. Selling expenses and general and administrative expenses

Selling expenses reflect indirect expenses incurred from selling goods and providing services.

General and administrative expenses reflect the general expenses of the company, including: labor cost; social and health insurance, unemployment fund, union cost of management employee; office and tools expenses, depreciation for assets used in administration purposes; land rental, business license tax; provision for bad debts; expenses from external services and other expenses, etc.

21. Taxation

Current tax expenses are the CIT expenses payable based on the taxable income and applicable CIT tax rate.

Deferred tax expenses is the CIT expenses payable in the future resulting from:

- Record of deferred tax liability during the year;
- Reimbursement of deferred tax assets recorded in previous years.

22. Consolidated financial statements

Consolidated financial statements consist of the separate financial statement of the parent company (i.e. Binh Thanh Import Export Production & Trade Joint Stock Company) and financial statements of subsidiaries for the fiscal year 2025, ended as at 31/12/2025.

Account balances on the consolidated balance sheet between subsidiaries and the parent company, income and expenses, unrealised profit or losses incurred from the internal transactions are eliminated.

Non-controlling interests are the portion of the interest in the profit or losses, and in the net assets of the subsidiaries not held by the parent company and are presented separately on the Consolidated Income Statement and are presented separately from the equity portion of the parent company's shareholders in the equity section on the Consolidated Balance Sheet.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS OUARIER 1 2025

VII. Other information

The Company is exposed to credit risk from its operating activities (primarily for trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

b. Trade receivables

The Company minimizes credit risk by dealing only with the customers that have good credit history. Besides, the accountants follow up the account receivables regularly to expedite the receivables of the Company are related to various entities and therefore the credit risk exposed from trade receivables is low.

c. Bank deposits

Most of the Company's cash in bank is in the large and musted banks in Vietnam. Credit risk to this balance at the bank is managed by the treasury department of the Company in accordance with Company policy. The Company does not realize any material credit risk to this cash in bank.

d. Liquidity risk

The liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligation due to shortage of funds.

The Board of Directors is responsible for managing liquidity risk. The most major payables are secured by deposits, receivables and short-term assets. The Company did not perform a sensitive analysis on liquidity risks because concentration on liquid risks are low.

The Company monitors its liquidity risk by maintain a level of cash and cash equivalents and bank loans deemed adequate by management to finance the Company's operations and to mitigate the effects of fluemations in cash flows.
